

# POLY STONE *with a Splash!*

For exceptional looking surfaces that require added panache, **Poly Stone™** now offers twelve NEW colors collectively known as **Splash™**. Ideally suited for pool and spa applications, the new Splash line is unlike standard Poly Stone colors, with the inclusion of distinctive reflective flecks. Dramatically enhanced through water and natural and/or artificial lighting, the result is a beautiful array of dazzling colors sure to capture attention.

Poly Stone uses the finest raw materials under a patented process (patent no. 5,588,599). UV, fire, chemical and stain resistant, Poly Stone Splash colors are ideal for a range of applications including those exposed to direct sunlight, adding exceptional durability to beautiful design.

For superior aesthetics at the most affordable price, choose Poly Stone Splash for your next pool or spa.

## Applications Include:

- Fiberglass pools
- Spa and bathtubs
- FRP products, general
- Cast polymer
- Solid surface

# Poly Stone™ Splash™ Pool and Spa Color Collection

White Sands PS 620

Aegean Sea PS 630

Milky Way PSLC 631

*Custom colors are available upon request! More Poly Stone colors available at [www.acsinternational.com](http://www.acsinternational.com).*

\*Though Poly Stone offers UV stability, the long term durability of the finished product greatly depends on the resin used. See resin supplier/manufacturer for their UV testing. Colors are representational and will vary. All colors, with the exception of Key West, have some type of glitter that does not appear well in the images.
